

I do not want a change to the Wisconsin No Call List. Since we have been on the list, we have had no annoying telemarketing calls. My husband works at home and was getting calls during the day, disturbing his work and we would get many at suppertime and even pretty late at night when we were putting the kids to bed. We feel it is an invasion of our privacy to be called all the time like that and the No Call List protects our privacy and right to be left alone. Please do not change our Wisconsin No Call List.
